

## New warranty terms for Thies First Class Anemometer/ Now with 5-year WARRANTY<sup>1</sup>

20 years ago, we introduced the first Thies First Class Anemometer. With it, the wind energy industry received a measurement device that not only met but exceeded the IEC requirements of those days.

Thousands of measurement studies with the First Class anemometer have exhibited precise and highly reliable measurement of wind energy resources while minimizing the uncertainties.

The long term behavior of the Anemometer reflects a device of upmost quality and precision.

Over time the Thies First Class Anemometer has developed into the industry standard for high quality, bankable data collection.

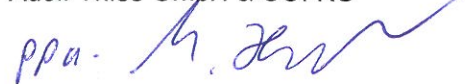

A continuously optimized design combined with the highest levels of quality control and the best materials results in an extremely accurate, reliable and durable device. The experience we have gained over the past 20 years speaks for itself.

To demonstrate our total confidence in the proven quality of our First Class Anemometer we will grant a five year warranty<sup>1</sup> on all First Class Anemometers bought from 2020 onwards. We trust in the quality of our product and are willing to stand behind it!

**Accurate and reliable.  
Guaranteed!**

Best regards

Adolf Thies GmbH & CO. KG
